2016

Dear Sir/Madam,

You are invited to participate in the Pro-Defense event, which will take place between 2 and 5 June 2016 at Expo Mazury in Ostróda. This will be a unique event on a European scale, with a comprehensive approach to the issues of pro-defense. It will consist of the Pro-Defense Fair, the Congress and Conference of Pro-Defense Organisations of Poland and other NATO member states, as well as a number of accompanying events, such as training, presentations and workshops, etc. The event is staged in cooperation with the Ministry of National Defence.

The Pro-Defense event is addressed primarily to members of pro-defense organisations, those interested in military issues, as well as in preparedness, survival and the outdoors. We expect Pro-Defense to be visited by about 50,000 people from Poland and abroad. Representatives of NATO member countries have also been invited to participate.

Among the exhibitors in the Fair component of Pro-Defense will be the largest companies in the arms industry, manufacturers of specialist equipment for training, logistics, communications, rescue and personal safety, as well as those from other fields necessary for the proper functioning of territorial defence. We expect your company to be among the exhibitors at the Pro-Defense Fair.

We are looking forward to cooperating with you!

Piotr Czuryłło
PROJECT MANAGER
